What is Pupil Premium?

The Pupil Premium was introduced in April 2011. The Government believes that the Pupil Premium, which is additional to main school funding, is the best way to address the current underlying inequalities between children eligible for free school meals (FSM) and their wealthier peers by ensuring that funding to tackle disadvantage reaches the pupils who need it most.

The Pupil Premium is allocated to children from low-income families who are currently known to be eligible for FSM (for at least six months at any point in the previous six years) in both mainstream and non-mainstream settings and children who have been looked after continuously for more than six months. Each January the Government undertake a census of schools to determine the

number of pupils who are eligible for Pupil Premium. Based on this information schools receive the grant in April for the next financial year.

Schools and academies are accountable as to how this additional funding is being spent to close the attainment gap that exists between children from disadvantaged and more affluent backgrounds. From September 2012, schools are required to publish online information about how they have used the Premium. This will ensure that parents and others are made fully aware of the attainment of pupils covered by the Premium. In 2016/2017 the allocation is £1320 per pupil.

Impact statement: Financial Year April 1st 2016 - March 31st 2017

How have we utilised this grant?

Analysis of our school data indicates that most pupils who were given additional support made expected progress or better. The benefits gained by using additional staff to boost literacy results and the additional support given by the Senior Leadership team to identify pupils in Year 6 for writing, reading and numeracy was evident in the results achieved at the end of KS2.

In addition, we used our data to identify the barriers for learning for pupils where progress was not as expected. Barriers which were identified were issues such as the social and emotional welfare of pupils. When putting together the plan for 2017 - 2018 we added additional external agencies to develop our support for the social, emotional and mental health well-being of our children here at Reaside.

Pupil Premium funding was therefore utilised in some of the following ways:

- Further investment in reading resources - Reading volunteers, CGP reading comprehension booklets, Quality first read books (texts), weekly delivery of 'First News' to continue to encourage reading in another format, 'Reading eggs' subscription, Story time subscription and Rising stars which is designed for the more able reader to accelerate their progress.
- Music tuition to raise aspiration - ukulele, drumming, keyboard, fife, recorders etc.
- Inspire Workshops and Parent Workshops - to increase parental involvement
- Involvement of an Attendance officer (Mrs Michelle Stephens)- to support the academy in improving attendance

- Enhanced support staff - Teacher 3 days a week with a focus on PP children
- On line speedy maths activities (DB Primary).
- Further development of our support for the social, emotional and mental health and well-being of our children. Support offered by the School Nurse, Attendance officer, Frankley Plus Children's Centre, Family support worker and Banardo's. They are all accessed along with SLT and Educational Psychology services to families with wider problems which were making a significant impact on a pupils learning such as attendance, housing issues, domestic violence etc.

Key:

Educational spend	£114,028
Pastoral spend	£ 61,229

Total current expenditure = £175,257

Contingency funding = £2,943

As the Pupil premium funding is currently only an indicative amount we have held back a small contingency fund. We review our Pupil Premium spending and needs for interventions every half term as part of our Pupil Progress and Provision Mapping meetings. By holding a small contingency fund, we will be able to respond to any future needs for our pupil premium children as they arise.
